ATTACHMENT: We Build The Wall; Initial Project at AEB LETTER dated June 18, 2019

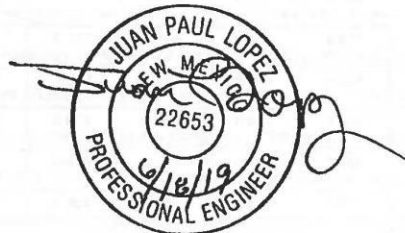

1hr event NMDOT Manual requires a 24-hr.

$i = 1.55$ inches/hour for the 10 year 60 minute event. Please see attached table from NOAA Atlas 14, Volume 1, Version 5.

Velocity over sand & gravel bottom (slope average $>10\%$) is determined to be 5 ft./sec.

AEB Pit area	surface	C	A(ac.)	Q (cfs)	Q (cumulative)
A	rocky soil	0.2	1.8	0.588	0.588
B	rocky soil	0.2	2.9	0.899	1.487
C	concrete	0.8	0.8	0.744	2.231
D	rocky soil	0.2	2.5	0.775	3.006
E	rocky soil	0.2	2.7	0.837	3.843
F	concrete	0.8	0.8	0.744	4.587
G	rocky soil	0.2	2.6	0.806	5.393
H	rocky soil	0.2	1.9	0.589	5.982

The peak flow for this watershed is determined to be 5.98 cubic feet per second for the 10 year event. This flow rate will be handled by the channels which were constructed. Retention basins will also store a portion of the runoff and capture sediment on the property during larger events.

Acting Sec. McAleenan,

Please find attached a letter from We Build the Wall seeking permission to construct bollard fencing that would close th (b)(7)(E) gap. Thank you.

Kris Kobach

**Kris W. Kobach
General Counsel
P.O. Box 155
Lecompton, KS 66050**

June 6, 2019

Kevin McAleenan
Acting Secretary
U.S. Department of Homeland Security
1300 Pennsylvania Ave., NW
Washington, DC 20229

Dear Acting Secretary McAleenan,

As you may be aware, We Build the Wall recently closed a half-mile gap in the metropolitan El Paso system of border barriers, blocking a heavy corridor of immigrant smuggling and drug smuggling. It was the first time that a substantial border barrier had ever been constructed on private land by a private organization. The project was at Monument One, in Sunland Park, New Mexico.

The new border barrier starts at the Rio Grande and continues 2,256 feet east, climbing 310 vertical feet up the east side of Mt. Cristo Rey. Like other border fence sections, it is an 18-foot high, steel bollard fence with 4-foot anti-climbing plates at the top. It is set in a 7-foot concrete footing. However it is superior to other fence sections in four respects: (1) it is constructed of all-weathering steel; (2) it is accompanied by a paved access road for the Border Patrol along its length; (3) it includes state-of-the art sensors that are an improvement over sensors elsewhere on the border; and (4) it includes stadium-quality LED lighting along its entire length. The fence was erected in approximately one week, and the entire project was completed in less than two-weeks.

I am writing to you now to request permission to construct a border barrier of the same quality to close a gap on the west side of Mt. Cristo Rey, at Anapra, New Mexico, approximately one mile west of the project that we just completed. The land that we

would like to build the barrier on is owned by the United States (it is not merely an easement created by the Roosevelt Reservation). For some reason, when the U.S. government constructed the steel bollard fence near the Santa Theresa Station, the fence ended abruptly on the flat ground at the bottom of the west side of Mt. Cristo Rey, right next to a neighborhood on the Mexican side. This Anapra gap has become one of the worst trafficking corridors on the southern border. On April 30, 2019, the Border Patrol apprehended 424 migrants who had crossed through the Anapra gap – the largest-ever migrant group apprehended as of that date. It is essential to the security of the United States that this gap be closed. However, it is not covered in any of the existing projects planned by the United States government.

We Build the Wall is asking your permission to build a 3,000-foot-long, 18-foot-tall, state-of-the-art steel bollard border fence to close the Anapra gap. The proposed fence would commence where the old steel bollard fence ends (at 31.78394, -106.55834) and extend east to the eastern boundary of the U.S. government property (at 31.78394, -106.54870). It would climb approximately 340 vertical feet. Identical to the fence at Monument One, it would also include a concrete road along the north side of the barrier for the Border Patrol to use. There would be nothing blocking Border Patrol access along the border; indeed, the Border Patrol agents would enjoy the ability to drive vehicles where they never could before. If there are any modifications to the design that you would like us to make, we will make them.

And we would do it very quickly—we can mobilize the resources to begin the project within four weeks of receiving your approval, and we can complete the project in less than two weeks after that. The barrier would then be given to the U.S. Department of Homeland Security as a gift, courtesy of We Build the Wall. All that we require is your permission to begin work.

Please contact me as soon as possible if you have any questions or to grant us approval to begin. (b)(6);(b)(7)(C) of the Border Patrol has inspected the project we recently completed at Monument One and can attest to its quality. As you know, time is of the essence. This gap is used nightly to smuggle in hundreds of migrants and untold quantities of drugs. We stand ready to close the gap.

Yours sincerely,

A handwritten signature in blue ink that reads "Kris Kobach". The signature is fluid and cursive, with the first name "Kris" and last name "Kobach" clearly legible.

Hi (b)(6);(b)(7)(C)
Seeking comment on this video posted by Brian Kolfage of We Build the Wall. He claims the man in red is carrying a firearm in his shorts.

Is it unusual/not unusual for coyotes to come across the border leading groups of immigrants and then going back to Juarez?

Is it unusual for some of those coyotes to come across armed?

Thank you!

 - Accepted Offers-to-Sell: 0 of 43 (0%)

FY 2018 Wall Program

- (b) (7)(E) Primary Replacemen (b) (7)(E)
 - (b) (7)(E) more than last week), have been constructed as of July 24. Construction completion is estimated fo (b) (5). (Photos attached)
 - (b) (7)(E) are under contract. The remainin (b) (7)(E) have yet to be awarded (b) (5)
- San Diego Secondary Replacement (~14 miles):
 - ~5.4 miles (0.2 miles more than last week), have been constructed as of July 24. Panel construction completion for is estimated for January 2020. (Photos attached)
- San Dieg (b) (7)(E) Primary Replacemen (b) (7)(E)
 - (b) (7)(E) more than last week), have been constructed as of July 24. Panel construction completion for is estimate (b) (5) (Photos attached)
- El Centr (b) (7)(E) Primary Replacemen (b) (7)(E)
 - The USACE has been working through real estate challenges arising from poor land ownership records from previous barrier construction. DOJ is working with the USACE and CBP on obtaining the necessary private tracts of land. DOJ's involvement will allow for real estate clearance to continue, but the timeline is currently unknown pending the court issuing declarations of taking. The next panel installatio (b) (7)(E) is anticipated to start i (b) (5).
- Rio Grande Valley Levee Wall (RGV (b) (7)(E) / RGV (b) (7)(E)
 - RGV (b) (7)(E) USAC (b) (5)
(b) (5) USACE has agreed on a new approach to clear real estate 2 miles at a time in an effort to keep the project moving. All Offers-to-Sell have been sent to landowners and are currently in negotiations.
 - ROE-S signed to date: 34 of 34 (100%)
 - Surveys complete: 34 of 34 (100%)

- Appraisals complete: 31 of 31 (100%) (only required for private tracts)
- Offers-to-Sell Delivered: 31 of 31 (100%) (only required for private tracts)
 - Some offers have been with land owners for over a month. Project designs are currently being developed and are not finalized. Many landowners have irrigation or drainage questions that CBP cannot answer with confidence as the design process is ongoing. Landowners are hesitant to sign without knowing the final plan for the property. CBP continues to engage landowners in an effort to incorporate any landowner concerns into the initial design phase to preclude court action, and move to offer acceptance in as many cases as possible.
- Accepted Offers-to-Sell: 7 of 31 (23%) (an increase of 1 from last week)
- RG (b) (7)(E) Limited construction continues on the enforcement zone patrol road. CBP met this week to review the levee seepage mitigation design. IBWC comments are due back July 31. Once the final design is approved by all stakeholders, and real estate is cleared, levee wall construction will commence.
 - ROE-S signed to date: 19 of 19 (100%)
 - Surveys complete: 19 of 19 (100%)
 - Appraisals complete: 11 of 16 (69%) (only required for private tracts; an increase of 5 from last week)
 - Offers-to-Sell Delivered: 11 of 16 (69%) (only required for private tracts; an increase of 5 from last week)
 - Accepted Offers-to-Sell: 0 of 16 (0%)
- Rio Grande Valley Border Wall System (RG (b) (7)(E) i (b) (7)(E) County):
 - This project comprises the areas that require additional consultation with (b) (7)(E) County elected officials (as required by the FY19 appropriation language). USBP has received all proposed alignments. The proposals are currently undergoing hydraulic analysis and modeling which is now anticipated to be completed in lat (b) (5) which will then be reviewed by RGV Sector to identify any operational gaps. USBP and USACE will then discuss the findings of the analysis with the cities in an effort to seek a consensus on alignments while meeting operational requirements and treaty obligations. These meetings are anticipated to occur with the cities in September. It is anticipated that this may continue past September 30, 2019, which was the deadline established in the FY19 appropriation language.
 - ROE-S signed to date: 136 of 155 (88%)
 - Surveys complete: 20 of 155 (13%)
 - Appraisals complete: 0 of 152 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 152 (0%) (only required for private tracts)
 - Accepted Offers-to-Sell: 0 of 152 (0%)

FY 2019 Wall Program

- Rio Grande Valley Levee Wall (RGV (b) (7)(E))
 - The contract award remains anticipate (b) (5) Construction start is anticipated for (b) (5), assuming availability of real estate.
 - ROE-S signed to date: 81 of 95 (85%)

- Surveys complete: 88 of 95 (92%)
- Appraisals complete: 6 of 85 (7%) (only required for private tracts; an increase of 5 from last week)
- Offers-to-Sell Delivered: 6 of 85 (7%) (only required for private tracts; an increase of 5 from last week)
- Accepted Offers-to-Sell: 0 of 85 (0%)
- Rio Grande Valley Border Wall System (RG (b) (7)(E))
 - The Contractor is currently developing the construction schedule and design. Construction start is anticipated for September.
 - USBP continues to work with the USACE on barrier coating. USBP will apprise leadership of the potential impacts of the costs in advance of its execution.
 - This project is U.S. Fish and Wildlife property and is currently real estate cleared. Four private tracts will require easements for access during construction. The USACE is currently working to obtain access.
- Rio Grande Valley Border Wall System (Remainin (b) (7)(E))
 - The RFP packages for the FY19 projects RG (b) (7)(E) and RG (b) (7)(E) are anticipated to advertis (b) (5) and RGV (b) (7) is on track fo (b) (5). USACE has changed the acquisition strategy from the pre-qualified sources list (#3) to the Western MATOC.
 - Real estate numbers have been updated for FY19, however as the alignments are finalized, these are subject to change.
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - This award remains on hold with GAO Protest submitted by four companies. USACE has submitted the corrective action plan which the GAO appears to have accepted which should resolve the protest within 30-60 days.
 - ROE-S signed to date: 23 of 23 (100%)
 - Surveys complete: 0 of 23 (0%)
 - Appraisals complete: 0 of 21 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 21 (0%) (only required for private tracts)
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 170 of 177 (96%) (an increase of 1 from last week)
 - ROE-S DTs filed: 4 (pending)
 - Surveys complete: 0 of 177 (0%)
 - Appraisals complete: 0 of 174 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 174 (0%) (only required for private tracts)
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 75 of 89 (84%) (an increase of 1 from last week)
 - Surveys complete: 0 of 89 (0%)
 - Appraisals complete: 0 of 74 (0%) (only required for private tracts)

- Offers-to-Sell Delivered: 0 of 74 (0%) (only required for private tracts)
- RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 113 of 145 (78%) (an increase of 8 from last week)
 - ROE-S DTs filed: 3 (pending)
 - Surveys complete: 16 of 145 (11%)
 - Appraisals complete: 0 of 145 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 145 (0%) (only required for private tracts)
- As approved in late FY18, USBP will be constructing model enforcement zone at the Border Patrol Academy in Artesia, New Mexico to execute effective deployment, test and evaluation activities. Construction will include approximately 300 feet of primary and 300 feet of secondary border barrier with various toppings at various heights.
 - Construction is estimated to start in earl (b) (5) and complete by the end o (b) (5)

Treasury Forfeiture Funds (TFF)

- CBP continues to plan to be flexible in its execution of the TFF, including planning for the possible execution o (b) (7)(E), (b) (5)
 - USBP is currently scoping the projects i (b) (7)(E) and awaiting the hydrology and hydraulic analysis which is anticipated to be completed in lat (b) (5).
 - All Treasury Forfeiture Funds have been allocated to the Border Wall program as of July 25 in the amount of \$601M.

Acquisition

- The Eastern MATOC (\$5B in capacity) award remains on hold with a GAO Protest submitted by four companies. USACE has submitted the corrective action pla (b) (5)

FY 2020 Wall Program

- No update this week.

***We Build the Wall* Coordination**

- USBP is developing a checklist to evaluate both past and future border wall construction for donation acceptance. It is estimated that this checklist will be completed in mid-August for CBP and DHS leadership approval. USBP will then follow back up with the *We Build the Wall* organization and present the checklist at an in person meeting in late August.

DoD Coordination Update

- **284 Counter-Narcotics Funding (approximatel (b) (7)(E)):**
 - All of the DoD-assisted projects are now subject to a permanent injunction issued by the Federal District Court for the Northern District of California on June 28, 2019. The District Court's injunction bars the Government from taking any action to construct border barrier using the funds DoD had identified for the projects in the Yuma, El Paso, El Centro, and Tucson Sectors. The Government has appealed the District Court's decision that DoD's transfer of funds was impermissible. The Government is also seeking a stay of the injunction pending its appeal of the District Court's decision.

- The Supreme Court is anticipated to make a decision by the end of this week on the requested stay.
- The border wall projects included in DHS's request for assistance remain high priority areas for the USBP in order to obtain operational control of the border. Therefore, while the Government will not be undertaking any construction activity for these projects using DoD funds in light of the injunction referenced above, CBP will continue its environmental planning efforts to include the completion of environmental surveys to identify and consider potential impacts to the proposed border wall project areas in the event these projects proceed under future funding. The environmental planning efforts for these projects are funded by CBP appropriations.
- **2808 Military Construction Funding:** USBP is awaiting SECDEF's decision on the use of 10 U.S.C. § 2808 funds. SECDEF confirmed by U.S. Senate on July 23.

Subject: Border Wall Weekly (22-26 July)

All,

Below is the Border Wall Weekly update that was sent yesterday to DHS HQ and CBP leadership.

Please note that RG (b) (7)(E) were NOT solicited by USACE yesterday and that is now anticipated for (b) (5)

Also, as you all are likely aware, the 284 stay has been lifted by the Supreme Court. Details

here: <https://apnews.com/5d893d388c254c7fa83a1570112ae90e>

Attached are the Border Wall card and updated photos.

Have a great weekend!

Thanks,

(b)(6);(b)(7)(C)

Executive Summary: To date, ~14 miles (18% and ~1.3 miles more than last week) of the FY18 new and replacement wall (~76-80 total miles) and ~39.5 miles (99%) of the FY17 replacement wall (~40 total miles) have been constructed.

FY 2017 Wall Program

- San Diego Primary Replacement Project (~14 miles):
 - ~13.1 miles (36 more panels than last week), have been constructed as of July 24. The last panels are expected to be installed in the next two weeks. The total project is estimated to be approximately 13.2 miles, however, final measurement will be done upon completion. (Photos attached)
- RGV Gates (35 gates):
 - Package (b) (7)(E) gates in (b) (7)(E) County Construction is on-going a (b) (7)(E) gates. Construction completion is estimated for late (b) (5). (Photos attached)
 - Packages 2 & (b) (7)(E) gates in (b) (7)(E) County and (b) (7)(E) gates in (b) (7)(E) Award remains anticipated for (b) (5)
 - ROE-S signed to date: 30 of 43 (70%)
 - Surveys complete: 32 of 43 (74%)
 - Appraisals complete: 0 of 43 (0%)
 - Offers-to-Sell Delivered: 0 of 43 (0%)
 - Accepted Offers-to-Sell: 0 of 43 (0%)

FY 2018 Wall Program

- (b) (7)(E) Primary Replacement (b) (7)(E)
 - (b) (7)(E) more than last week), have been constructed as of July 24. Construction completion is estimated for (b) (5). (Photos attached)
 - (b) (7)(E) are under contract. The remaining (b) (7)(E) have yet to be awarded (b) (5)
- San Diego Secondary Replacement (~14 miles):
 - ~5.4 miles (0.2 miles more than last week), have been constructed as of July 24. Panel construction completion for is estimated for January 2020. (Photos attached)
- San Diego (b) (7)(E) Primary Replacement (b) (7)(E)
 - (b) (7)(E) more than last week), have been constructed as of July 24. Panel construction completion for is estimate (b) (5) (Photos attached)
- El Centro (b) (7)(E) Primary Replacement (b) (7)(E)
 - The USACE has been working through real estate challenges arising from poor land ownership records from previous barrier construction. DOJ is working with the USACE and CBP on obtaining the necessary private tracts of land. DOJ's involvement will allow for real estate clearance to continue, but the timeline is currently unknown pending the court issuing declarations of taking. The next panel installation (b) (7)(E) is anticipated to start in (b) (5)
- Rio Grande Valley Levee Wall (RGV (b) (7)(E) / RGV (b) (7)(E)
 - RG (b) (7)(E) USAC (b) (5)
(b) (5) USACE has agreed on a new approach to clear real estate 2 miles at a time in an effort to keep the project moving. All Offers-to-Sell have been sent to landowners and are currently in negotiations.
 - ROE-S signed to date: 34 of 34 (100%)
 - Surveys complete: 34 of 34 (100%)
 - Appraisals complete: 31 of 31 (100%) (only required for private tracts)
 - Offers-to-Sell Delivered: 31 of 31 (100%) (only required for private tracts)
 - Some offers have been with land owners for over a month. Project designs are currently being developed and are not finalized. Many landowners have irrigation or drainage questions that CBP cannot answer with confidence as the design process is ongoing. Landowners are hesitant to sign without knowing the final plan for the property. CBP continues to engage landowners in an effort to incorporate any landowner concerns into the initial design phase to preclude court action, and move to offer acceptance in as many cases as possible.
 - Accepted Offers-to-Sell: 7 of 31 (23%) (an increase of 1 from last week)
 - RG (b) (7)(E) Limited construction continues on the enforcement zone patrol road. CBP met this week to review the levee seepage mitigation design. IBWC comments are due back July 31. Once the final design is approved by all stakeholders, and real estate is cleared, levee wall construction will commence.
 - ROE-S signed to date: 19 of 19 (100%)
 - Surveys complete: 19 of 19 (100%)

- Appraisals complete: 11 of 16 (69%) (only required for private tracts; an increase of 5 from last week)
- Offers-to-Sell Delivered: 11 of 16 (69%) (only required for private tracts; an increase of 5 from last week)
- Accepted Offers-to-Sell: 0 of 16 (0%)
- Rio Grande Valley Border Wall System (RGV (b) (7)(E) i (b) (7)(E) County):
 - This project comprises the areas that require additional consultation with (b) (7)(E) County elected officials (as required by the FY19 appropriation language). USBP has received all proposed alignments. The proposals are currently undergoing hydraulic analysis and modeling which is now anticipated to be completed in late (b) (5), which will then be reviewed by RGV Sector to identify any operational gaps. USBP and USACE will then discuss the findings of the analysis with the cities in an effort to seek a consensus on alignments while meeting operational requirements and treaty obligations. These meetings are anticipated to occur with the cities in September. It is anticipated that this may continue past September 30, 2019, which was the deadline established in the FY19 appropriation language.
 - ROE-S signed to date: 136 of 155 (88%)
 - Surveys complete: 20 of 155 (13%)
 - Appraisals complete: 0 of 152 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 152 (0%) (only required for private tracts)
 - Accepted Offers-to-Sell: 0 of 152 (0%)

FY 2019 Wall Program

- Rio Grande Valley Levee Wall (RGV (b) (7)(E))
 - The contract award remains anticipated (b) (5). Construction start is anticipated for November, assuming availability of real estate.
 - ROE-S signed to date: 81 of 95 (85%)
 - Surveys complete: 88 of 95 (92%)
 - Appraisals complete: 6 of 85 (7%) (only required for private tracts; an increase of 5 from last week)
 - Offers-to-Sell Delivered: 6 of 85 (7%) (only required for private tracts; an increase of 5 from last week)
 - Accepted Offers-to-Sell: 0 of 85 (0%)
- Rio Grande Valley Border Wall System (RGV (b) (7)(E))
 - The Contractor is currently developing the construction schedule and design. Construction start is anticipated for September.
 - USBP continues to work with the USACE on barrier coating. USBP will apprise leadership of the potential impacts of the costs in advance of its execution.
 - This project is U.S. Fish and Wildlife property and is currently real estate cleared. Four private tracts will require easements for access during construction. The USACE is currently working to obtain access.
- Rio Grande Valley Border Wall System (Remainin (b) (7)(E))

- The RFP packages for the FY19 projects RG (b) (7)(E) and RG (b) (7)(E) are anticipated to advertise (b) (5) and RG (b) (7)(E) on track for (b) (5) USACE has changed the acquisition strategy from the pre-qualified sources list (#3) to the Western MATOC.
- Real estate numbers have been updated for FY19, however as the alignments are finalized, these are subject to change.
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - This award remains on hold with GAO Protest submitted by four companies. USACE has submitted the corrective action plan which the GAO appears to have accepted which should resolve the protest within 30-60 days.
 - ROE-S signed to date: 23 of 23 (100%)
 - Surveys complete: 0 of 23 (0%)
 - Appraisals complete: 0 of 21 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 21 (0%) (only required for private tracts)
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 170 of 177 (96%) (an increase of 1 from last week)
 - ROE-S DTs filed: 4 (pending)
 - Surveys complete: 0 of 177 (0%)
 - Appraisals complete: 0 of 174 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 174 (0%) (only required for private tracts)
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 75 of 89 (84%) (an increase of 1 from last week)
 - Surveys complete: 0 of 89 (0%)
 - Appraisals complete: 0 of 74 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 74 (0%) (only required for private tracts)
 - RG (b) (7)(E) Border Wall System (b) (7)(E)
 - ROE-S signed to date: 113 of 145 (78%) (an increase of 8 from last week)
 - ROE-S DTs filed: 3 (pending)
 - Surveys complete: 16 of 145 (11%)
 - Appraisals complete: 0 of 145 (0%) (only required for private tracts)
 - Offers-to-Sell Delivered: 0 of 145 (0%) (only required for private tracts)
- As approved in late FY18, USBP will be constructing model enforcement zone at the Border Patrol Academy in Artesia, New Mexico to execute effective deployment, test and evaluation activities. Construction will include approximately 300 feet of primary and 300 feet of secondary border barrier with various toppings at various heights.
 - Construction is estimated to start in early (b) (5) and complete by the end of (b) (5)

Treasury Forfeiture Funds (TFF)

- CBP continues to plan to be flexible in its execution of the TFF, including planning for the possible execution of (b) (7)(E)
 - USBP is currently scoping the projects in (b) (7)(E) and awaiting the hydrology and hydraulic analysis which is anticipated to be completed in late (b) (5) .
 - All Treasury Forfeiture Funds have been allocated to the Border Wall program as of July 25 in the amount of \$601M.

Acquisition

- The Eastern MATOC (\$5B in capacity) award remains on hold with a GAO Protest submitted by four companies. USACE has submitted the corrective action plan (b) (5)

FY 2020 Wall Program

- No update this week.

We Build the Wall Coordination

- USBP is developing a checklist to evaluate both past and future border wall construction for donation acceptance. It is estimated that this checklist will be completed in mid-August for CBP and DHS leadership approval. USBP will then follow back up with the *We Build the Wall* organization and present the checklist at an in person meeting in late August.

DoD Coordination Update

- **284 Counter-Narcotics Funding (approximately (b) (7)(E))**
 - All of the DoD-assisted projects are now subject to a permanent injunction issued by the Federal District Court for the Northern District of California on June 28, 2019. The District Court's injunction bars the Government from taking any action to construct border barrier using the funds DoD had identified for the projects in the Yuma, El Paso, El Centro, and Tucson Sectors. The Government has appealed the District Court's decision that DoD's transfer of funds was impermissible. The Government is also seeking a stay of the injunction pending its appeal of the District Court's decision.
 - The Supreme Court is anticipated to make a decision by the end of this week on the requested stay.
 - The border wall projects included in DHS's request for assistance remain high priority areas for the USBP in order to obtain operational control of the border. Therefore, while the Government will not be undertaking any construction activity for these projects using DoD funds in light of the injunction referenced above, CBP will continue its environmental planning efforts to include the completion of environmental surveys to identify and consider potential impacts to the proposed border wall project areas in the event these projects proceed under future funding. The environmental planning efforts for these projects are funded by CBP appropriations.
- **2808 Military Construction Funding:** USBP is awaiting SECDEF's decision on the use of 10 U.S.C. § 2808 funds. SECDEF confirmed by U.S. Senate on July 23.
